

PRACTICE-AREA PACK

Immigration Pack

Case-type intake with document checklists and government-deadline tracking.

For: Immigration practices, across family, employment, asylum, naturalization, and removal defense. **Price:** \$1,500 (installed for you, included)

Core engines, preconfigured

- Intake Velocity Engine
- No-Show Shield Engine
- Reviews & Reputation Engine

Plus, tuned for immigration practices, across family, employment, asylum, naturalization, and removal defense

- Case-type intake across family, employment, asylum, naturalization, and removal defense, opening each matter in the right area
- Document-checklist automation that adjusts by case type, chases missing items, and escalates when the chase stalls
- Deadline reminder cascades ahead of each RFE response date, for client and attorney, with clean exit rules
- Status-expiry early warning that doubles as renewal re-engagement
- Immigration fields: case type, USCIS receipt number, priority date, RFE deadline, status expiry, preferred language

How it installs

The whole pack is delivered through the LexLabs Lawmatics agency. After a quick onboarding (we email Lawmatics support and CC you to add your firm to our agency; you reply to confirm), we push it into your account in about one click. You then activate and customize, starting with each engine's setup guide.

Questions

What case types does the intake cover?

One structured intake routes family, employment, asylum, naturalization, and removal defense matters, then opens each in the right practice area.

Does it work for clients who do not speak English?

Client emails ship in English, and intake captures each client's preferred language from the start, so translated sequences can be added later without a rebuild.

Installed for you, included. We push the pack into your Lawmatics, map it to your fields and links, customize the copy, and run a short review call. No setup fee.
