

PRACTICE-AREA PACK

Personal Injury Pack

Contingency intake that never misses a statute-of-limitations date.

For: Personal injury and plaintiff firms that take cases on contingency. **Price:** \$1,500
(installed for you, included)

Core engines, preconfigured

- Intake Velocity Engine
- No-Show Shield Engine
- Reviews & Reputation Engine

Plus, tuned for personal injury and plaintiff firms that take cases on contingency

- Injury intake staged for contingency matters: incident type, treatment status, insurance carriers on both sides, prior-attorney history
- Statute-of-limitations watchdog with escalating reminders at 180, 90, and 30 days, widening from the handling attorney to the managing partner
- Medical-records request automation tracked as a task chain and re-chased until records arrive
- Post-hire injury pipeline: treating, demand prep, demand sent, negotiation, litigation, settled
- Partner reports: a statute watchlist by soonest deadline, and pipeline value by stage

How it installs

The whole pack is delivered through the LexLabs Lawmatics agency. After a quick onboarding (we email Lawmatics support and CC you to add your firm to our agency; you reply to confirm), we push it into your account in about one click. You then activate and customize, starting with each engine's setup guide.

Questions

What does the statute-of-limitations watchdog do?

Each matter carries a statute date. As it nears, reminders escalate from the handling attorney to the managing partner, and a watchlist keeps every open matter sorted by soonest date.

When do review requests go out?

The core engines come preconfigured, with review requests held until a matter settles, so you never ask for a review mid-case.

Installed for you, included. We push the pack into your Lawmatics, map it to your fields and links, customize the copy, and run a short review call. No setup fee.
